

Viktoriya Mikhaylova

UI/UX & Graphic Designer

Product Designer

Mobile/Web Developer

Visual Content Creator

with a Passion for Inclusive & Accessible Design

Introduction

As a UX/UI designer with a background in visual, mobile, and web design, and a growing interest in product design, I create experiences that unite aesthetics, clarity, and purpose. Combining design intuition with hands-on technical skill, I'm not afraid to dive into code, resolve complex bugs, and perfect every interaction until it performs beautifully. My process is rooted in design thinking and user insight, transforming complex challenges into intuitive, visually cohesive solutions. I focus on crafting elegant interfaces that balance beauty and usability, ensuring every element contributes to a seamless user journey. With a passion for detail and continuous improvement, I strive to design products that inspire engagement, strengthen brands, and deliver lasting impact. I thrive in both self-driven and collaborative environments, embracing an agile way of working while continuously evolving to create meaningful, future-ready design solutions.

I worked with

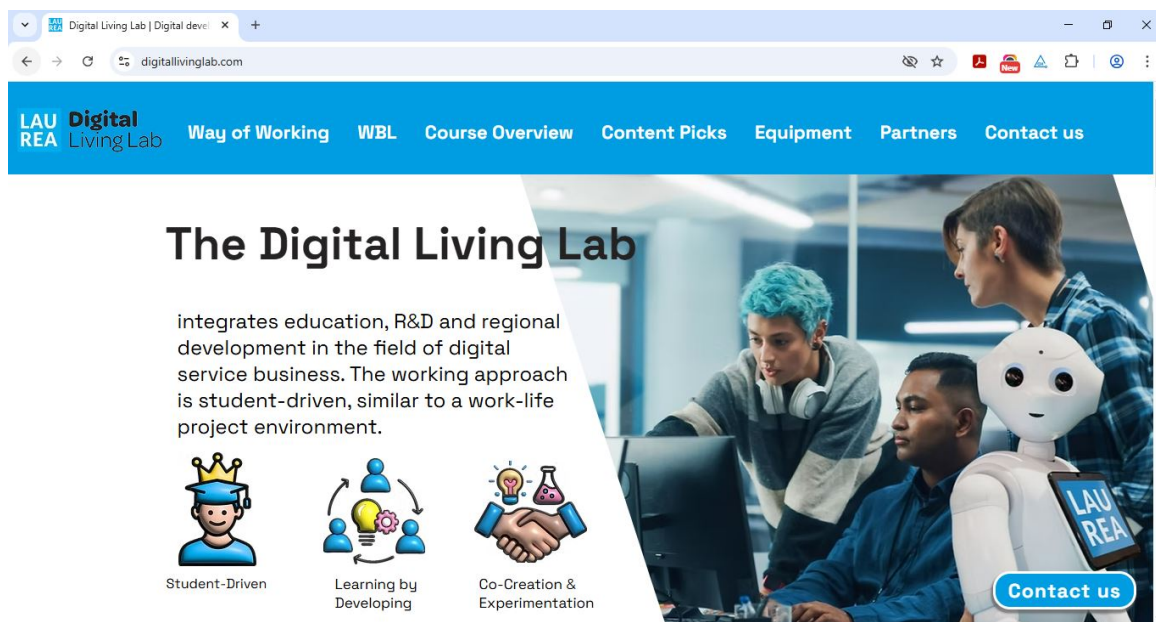

Lapinjärvi

My Portfolio

Welcome! Explore my work in UI/UX, Graphic Design, and Web Development.

The SATO logo is displayed in white lowercase letters on a solid orange square background.

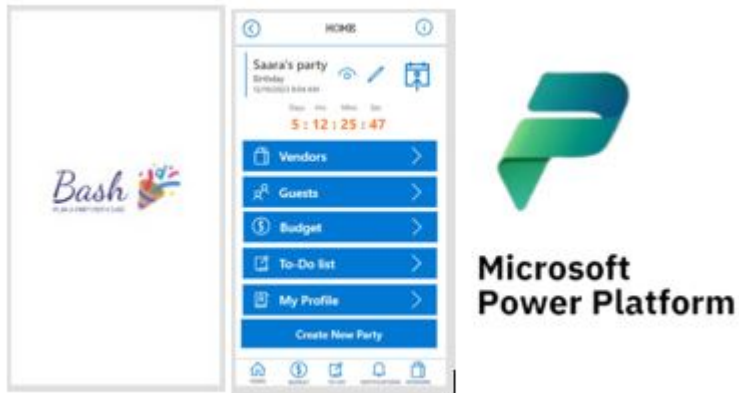

The SATO Project

UI/UX & Service Design for Tenant Engagement

Victoria WordPress Theme

Custom WordPress Theme Development

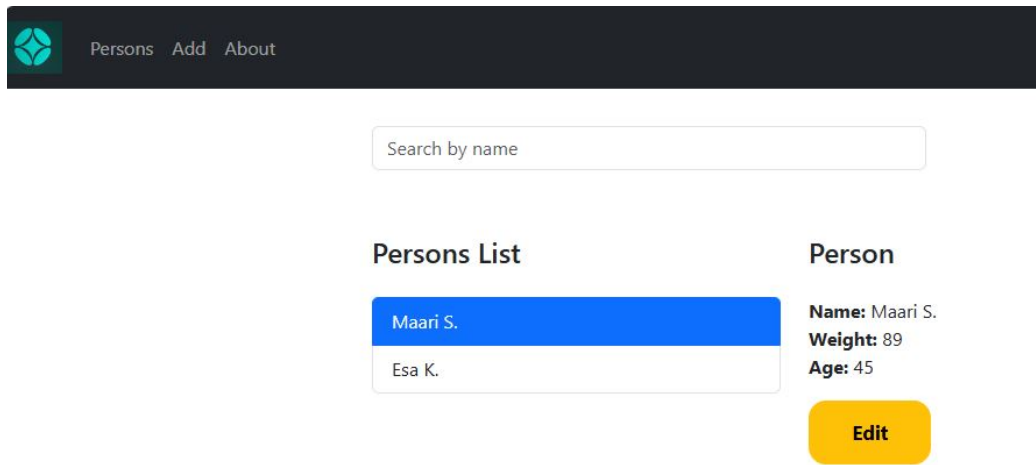

Bash Party Planning App

UX/UI Design & MS Power Platform Development

The image is a screenshot of a web browser showing a guestbook application. The browser's address bar displays 'https://guestbook-app-project.onrender.com/ajaxmessage'. The page has a navigation bar with links: 'DANISH BREAD BAKERY', 'Home', 'New Message', 'Ajax Message', and 'Guestbook'. The main heading is 'Enter new message'. Below this is a form with three input fields: 'Name' with the placeholder 'Enter your name', 'Country' with the placeholder 'Enter your country', and 'Message' with the placeholder 'Write your message here'. Each field has a small text label to its right that says 'This is a required field.' At the bottom of the form is a dark red button labeled 'Send'.

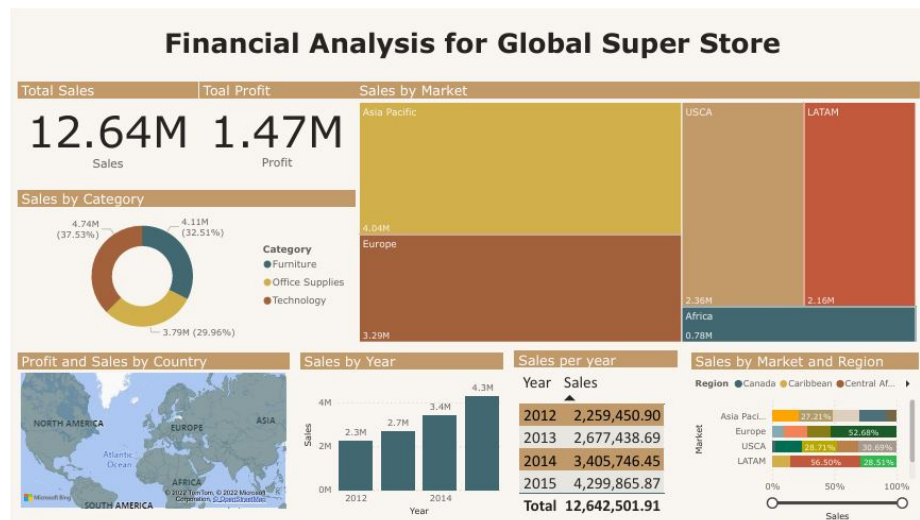

Guestbook App

Full Stack Development - Node.js

Weight and Age Tracking App

Full Stack Development - React

Data Visualisation

Microsoft Power BI and SAS Viya

Graphic Design

Illustrations & Animations

JÄÄkarhu Ice cream

Brand & Package Design project - Graphic and Web Design
